Dear Colleague:

MICHELLE AND I ARE DELIGHTED TO INVITE YOU TO the 77th Annual Meeting of the Southern Neurosurgical Society, March 3–6, 2027, at the Hyatt Regency Lost Pines Resort and Spa outside Austin, Texas. It is a spectacular setting for what we hope will be an equally memorable meeting—a few days to learn, reconnect with old friends, make new ones, and enjoy a little Texas hospitality along the way.

Our theme this year is:

Science. Skills. Southern.

What we know. What we do. Who we are.

Those words capture what we hope this meeting will be about. **Science** is the foundation of our profession. **Skills** are how we translate that knowledge into care for our patients. And **Southern** reflects something equally important—the people, relationships, traditions, and sense of community that have always made this Society special. Dr. Kara Parikh has put together an outstanding scientific program around those ideas. Highlights include expert debates in our Spine and Tumor sessions, a presentation on important advances in pediatric neurosurgical care, and a Round Table devoted to something every surgeon confronts: how we handle, avoid, and—perhaps most importantly—learn from mistakes and complications.

We are thrilled to welcome author, food writer, and historian **John T. Edge** as our Downing Lecturer. **Daniel Prevedello** and **Judy Huang** will join us as the Hudson and Semmes Lecturers, and we will honor **Dan Barrow** as our 2027 Distinguished Practitioner. And on Friday evening, **Ray Wylie Hubbard and his band** will join us for what promises to be an unforgettable Family Night under the Texas stars.

Lost Pines gives us the perfect setting. Spread across 405 acres along the Colorado River, the resort offers hiking and biking trails, golf, horseback riding, archery, pickleball, a waterpark, and plenty of room simply to relax and spend time together. Austin is only about 30 minutes away, but I suspect many of us will find very little reason to leave. I am particularly grateful to our local host, Dr. Nick Barbaro, whose enthusiasm and hard work have been instrumental in putting together what we believe will be an exceptional meeting. Because we are gathering at a popular resort during the spring break season, **I encourage you to reserve your room early**, especially if you plan to extend your stay.

It is an incredible honor for me to serve as President of the Southern Neurosurgical Society. This Society has always been about more than a scientific meeting. It is about friendships, mentorship, shared experiences, and a community that has connected generations of neurosurgeons. Michelle and I cannot wait to welcome you to Texas.

See you at Lost Pines!

Madison and Michelle

Learning Objectives

- Discuss advances, controversies, and emerging developments in spine, peripheral nerve, pediatric, functional, neuro-oncology, skull base, and vascular neurosurgery.
- Describe current best clinical practices and emerging research in neurosurgery.
- Discuss current trends impacting the business of neurosurgery, including innovations in technology.
- Discuss practical methods for career growth and program development.

ACCREDITATION & DESIGNATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the AANS and Southern Neurosurgical Society (SNS). The AANS is accredited by the ACCME to provide continuing medical education for physicians. This activity has been approved for AMA PRA Category 1 Credit(s)™. Each physician should claim only the credit commensurate with the extent of their participation in the activity.

DISCLAIMER

The opinions expressed in this educational activity are those of the faculty and do not necessarily represent the views of the AANS. This educational activity does not endorse one particular type of instrumentation, nor is it intended to dictate an exclusive course of management. It presents one of numerous recognized methods of clinical practice for consideration for incorporation into practice. Variations of practice taking into account the needs of the individual patient, resources, and limitations unique to the institution or type of practice may be appropriate. Disclosure about patient confidentiality, standards of care, or course of management does not imply endorsement or disapproval of products.

Note: It is recognized that the use of non-FDA approved devices is described in some of the published material, but these techniques are often the standard of care and may be of value to the patients we serve.

INTENDED AUDIENCE

This program is intended for physicians, residents, fellows, and allied health professionals who include neurosurgery in their practices.

METHOD OF INSTRUCTION

This will be a live presentation with oral presentations and interactive discussions.

DISCLOSURES

The AANS and the Southern Neurosurgical Society (SNS) control the content and production of this CME activity and attempt to ensure the presentation of balanced, objective information. In accordance with the Standards for Integrity and Independence in Accredited Continuing Education established by the Accreditation Council for Continuing Medical Education (ACCME), faculty, abstract reviewers, paper presenters/authors, planning committee members, staff and others involved in the planning of the educational content must disclose all financial relationship they or their co-authors have with ineligible companies in the past 24 months. Before the program, all relevant financial relationships will be mitigated.

Note: The course chairs reserve the right to refuse admission to anyone whose presence is incompatible with course objectives.
