Dear Colleague:

TIME IS ETHEREAL. AND AS TIME PASSES IT TAKES ON AN INTERESTING QUALITY—it seems to accelerate. Time flies! I've been thinking about how important it is to make time to gather with friends, family, and colleagues. With this in mind, and with great excitement, I invite you and your family to attend the upcoming 70th meeting of the Southern Neurosurgical Society in wonderful Key Largo, Florida. One of the key elements of our meeting is that it provides a moment in time to reconnect and recharge. Time devoted to a scientific focus is balanced with time to reflect and relax.

The dual themes of our meeting are: Leadership and Mindfulness. With these themes in mind Albert Kim has put together a spectacular scientific program. Jacques Morcos and Michael Lawton—two of the most remarkable leaders in Neurosurgery will be giving the Semmes and Hudson lectures. David Breashears, one of the world's foremost mountaineers, and an avid photographer who led the IMAX expedition to the summit of Mount Everest, will be giving the Ned Dowling lecture. W. Jerry Oakes, MD will be honored as our Distinguished Practitioner. Our invited speakers will be focusing their talks on big ideas and innovation in Neurosurgery as we look towards the future.

We will gather in the extraordinary Ocean Reef Club resort in Key Largo Florida. Activities and adventures await including world-class golf, fishing, snorkeling, sailing, and kayaking. Don't miss our Mermaids & Pirates Themed Family Night on the Lagoon Beach, and the Interactive Cooking Class for spouses and guests. We always advise that you book your hotel rooms early, particularly if you plan an extended stay. Rooms may sell out well in advance of our meeting.

It has been so much fun and truly an incredible honor to serve as President of the Southern this year. I'll look forward to seeing you all and reconnecting with you this February in Key Largo.

Sincerely,

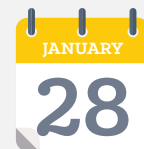

Reid C. Thompson, MD
